DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 6-9 and 62, drawn to casino-based game machine process, classified in class 463, subclass 42.
- II. Claims 10-15, 19, 21-30 and 63, drawn to process for connecting a non-gaming machine to a casino network, classified in class 709, subclass 208.
- III. Claims 31-35, 39-51 and 64, drawn to a web-based system, classified in class 709, subclass 200.
- IV. Claims 52-55, 57, 58 and 65, drawn to the gaming machine, classified in class 463, subclass 16.
- V. Claims 59-60, drawn to a bank of gaming machines, classified in class 463, subclass 40.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility such as being used with a

different subcombination other than the ones that are claimed.

See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for certain Groups is not required for other Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Addressing Formalities

The objection to the drawings is withdrawn because of the amendments made thereto.

The objection to the specification is withdrawn because of the amendments made thereto.

Art Unit: 3713

The amendments to claim 60 makes it non-compliant with Rules 75 and 121, because the claim is underlined, missing a period and appears to be an original claim from the claim identifier and not currently amended as would appear with a claim having underlining thereto. Correction is required.
